

LowPoly Bug Eye Asset pack consists of four models rigged and UV unwrapped with eight animations. Two of the models are flat shaded, and the other two are smooth shaded. One flat and one smooth shaded model have a custom hand-painted texture, adding more visual fidelity to the presentation.

Animations :

- Idle
- Walk
- Run
- Alert
- Anticipation
- Attack
- Blink
- Death

The vert count for all four models is 1558.

Note: Additional assets in the preview images and video are not included with the asset pack
